Since 2008 I have been passionate about creation of the interior design of apartments, houses, restaurants, cafes, offices and stores. Let me show you what has already been done and what is going to be.

Goreliek

A cottage

Every person has his own intrinsic features and style. An interior like clothing, but more privately reflects your inner world, which you keep safe and share with only the closest people.

That's why it is so important to make it in a quality and sustainable way.

**We love and respect both traditional and contemporary styles.
And what style do you have inside?**

Elena's

Apartment

A design project – from the idea, 3D visualization to the blueprints for implementation.

Layout – apartment’s plan – there is only one right solution how to tune the available space for your needs and wishes.

**3D visualization – the idea and its realization can differ substantially.
To be absolutely sure you should see it.**

MSK
Office

Our achievements: 60+ realized projects of apartments and houses, 200+ happy clients, 20+ employees who share your values.

Beside the private clients we work with the commercial ones and have already implemented 150+ of stores for Adidas, Reebok, Rockport, METRO cash and carry.

Testimonials

Dima, good afternoon!

Glad working with you again. Thanks for the architectural report.

What about zoning? Thanks.

Julia Zimina, Senior constructor spec., Adidas Ltd, CIS

Good day!

We have been thanked for that office. No faults or questions to the project during the construction. Thanks!

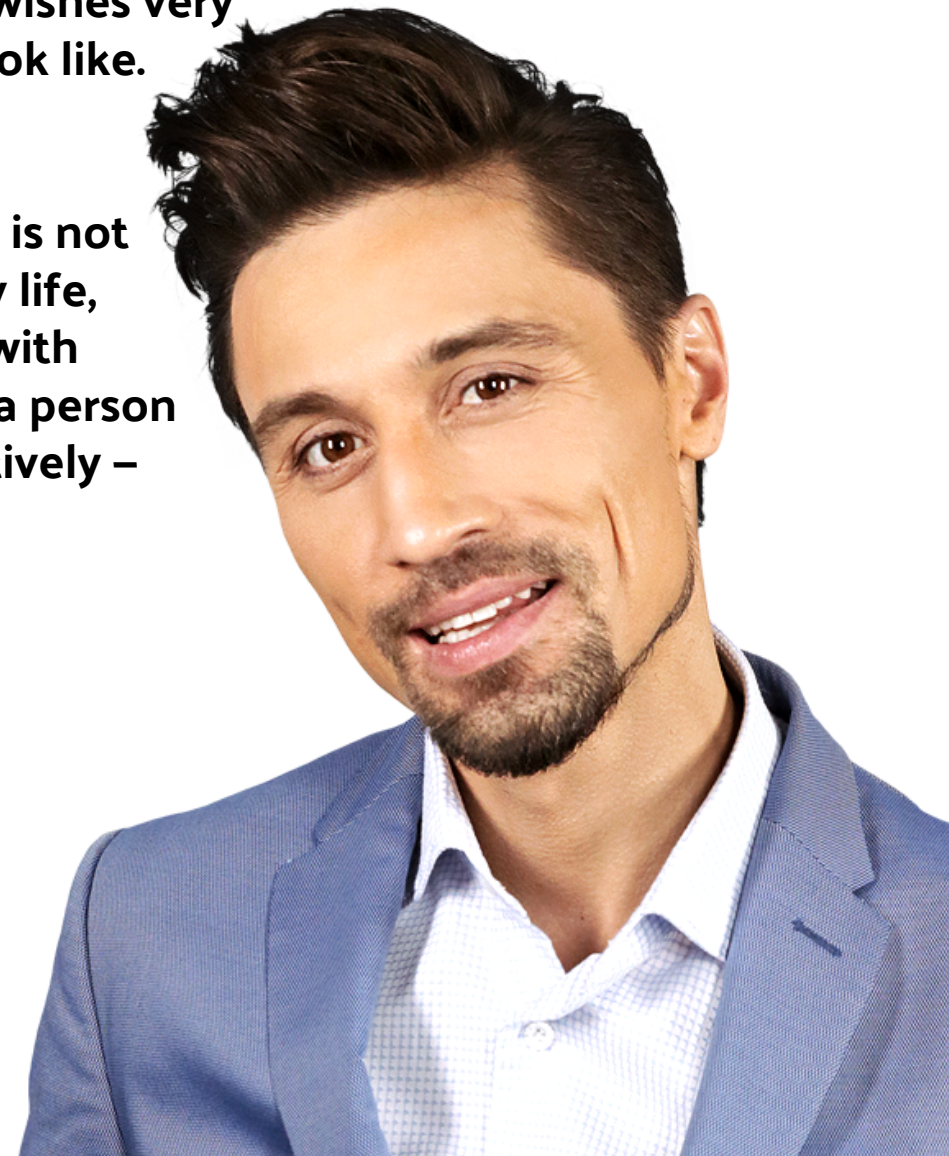

Sasha Bagrova, Spec.

For me, for example, it is very important to work with a sensitive person who is ready to hear me and work out the common concept. A contact with Dima Prasolov was undoubtedly real. It was seen from the very start that the person regarded to what he was doing with passion, decoded your emotional wishes very skillfully, understood your needs and how it would look like.

It is amazing when you see only abstraction and then you are being gathered together! Friendliness for me is not less important quality. I have seen lot of people in my life, communicated and implemented common projects with lot of them. That's why I can tell you when you meet a person and communicate with him comfortably and productively – you are definitely lucky.

Wish you Dima lot of luck and success!

*Dima Bilan, singer,
winner of Eurovision
2006 and 2008.
Actor and producer*

That's it, thank you
